

Tree-ific Activities!

A tree's beginning is recorded in the center of a tree ring and as the tree grows, its life changes are recorded in its rings.

Take some time to record your life with your beginnings in the center and the changes and life events you remember in the subsequent rings.

Tree of Life

Tree-ific Activities!

Observe the rings in the images below. Notice the width of the rings. Why do you think some rings are wider than others? Count the rings. How old the trees when they were cut down?
